NOTE: Download all your support materials and tools in one place.

1. Go to: <http://www.digital-watchdog.com/resources>
2. Search your product by entering the part number in the **'Search by Product'** search bar. Results for applicable part numbers will populate automatically based on the part number you enter.
3. Click **'Search'**. All supported materials, including manuals and quick start guide (QSGs) will appear in the results.

INSTALLATION

- 1 Using the mounting template or the junction box itself, mark and drill the necessary holes on the mounting surface.
- 2 Secure the junction box to the mounting surface using the screws and anchors included.
- 3 To mount the camera to the mounting accessory, remove the dome from the camera base using the wrench included with the camera.

NOTE: Do not touch the lens when handling the camera.

- 4 Pass wires through and make all necessary connections.
- 5 Secure the camera to the mounting bracket using the included mounting screws.
- 6 Adjust the camera's lens position and angle, then place the cover dome over the camera lens and affix the cover to the bracket with the original dome housing's screws.
